Another Sad Drowning

On Monday morning about 7.30 a.m. H. G. Faulkner and George Smith the ferryman were crossing the river in a row boat but owing to the strong current boat capsized by running foul of the ferry cable part of which was in the water Smith swam to the upturned boat Faulkner could not swim. He was floating down stream Smith called to him to hold on a minute longer as Smith had by this time secured one of the oars and he paddled toward Faulkner who was shouting, when Smith got within about one-half an oar's length of him he disappeared. Faulkner was 48 years old has a wife and 5 children in Cadott Michigan U. S. A. he came down to the Home Ranch from Ruffield a little over a week ago nothing is known of his party more than that he is married and has a family.

Local and General

\$1.00 fine and Costs

Sat. May 31 In A. P. P. Court before Mr. P. Lamarch, Sam Kea and Wong Hee Laundry, were fined \$1.00 and costs for lending two boys under 16 years a 22 rifle to shoot gophers with but which they fired inside the town limits.

The Review thinks that in the case against the Chinaman the \$1.00 fine and costs imposed on them was "not nearly enough considering the offence."

Here in this case a fully grown Chinaman Wong Hee purposely lent a tiny boy, a deadly weapon, and directed him to shoot at a dwelling house the bullet passing within a few inches of the head of a white woman; three shots in all were fired.

How would any of you men like your wife's life endangered by bullets fired and passing within a few inches of her head then a Chinaman to be let off with \$1.00 fine and costs? What do you white men think of that?

Miss. Millar and Mr. J. D. Millar are visiting their sister Mrs. C. G. McRory. Mr. Millar has recently returned from overseas after an absence of three years, where he served with the 10th. Battalion and was with that unit on their march into Germany.

Wants Prompt Action For To Save Russia

Paris.—A. Kerensky and members of the Russian Government for the restoration of Russia have issued an appeal to the people of the world for prompt action, with a view to helping Russia out of her present chaotic condition. It proposes the organization of a mission composed of delegates from all the powers, and including representatives of organized labor, which will go to Russia and explain to the people and the different Russian governments the democratic aims they are pursuing.

The appeal says:

"It should be stated categorically that the different governments repudiate the idea of any intervention likely to infringe upon the sovereign rights of Russia."

German People Are Learning The Truth

Have Been Ignorant of Acts Committed by Armies

Paris.—The German peace delegation, through the German newspapers, seems to be trying to prepare their country for the acceptance of the treaty. A new tone is observable in the German press for example the Liepzig Volkszeitung in explaining the enormous indemnity figure, says: "It must be remembered that the tracts of French territory have been rendered useless for many years. The devastated regions are twice the size of Saxony. Moreover, Germany took considerable quantities of stocks and bonds from the occupied territories. In the export warehouses are piled manufactured goods for example the German people are learning the truth."

"Better still, systematic devastations were perpetrated in the leading industries on a great scale. First the warehouses were emptied, then parts of the machinery were confiscated, and even the old iron was melted. Factories, homes, furniture, machine shops all fell into the hands of the occupying commission. It was thought that to get rid of competition for many years or during the long period which France and Belgium would need to reconstitute their industries and restore the devastated lands. Germany hoped to be able immediately after the war to offer her products to the world at a lower price than the world."

The German people seem to have been kept in ignorance hitherto of the acts committed by the German armies. They are just beginning to learn the truth.

German Officers to Be Tried

London.—Frederick Villiers, Hon. member, the former German Crown Prince, will be liable to trial under the terms of the German peace treaty. It was declared by Mr. A. Bonar Law, the government leader in the house of commons. Mr. Bonar Law said that the commandants of prison camps would also be liable under the terms of the treaty.

Germans Are Given A Time Extension

New York.—The Associated Press issues the following:

A period of seven days of grace has been extended to Germany by the representatives of the entente and associated governments, in which the German peace plenipotentiaries may conclude their study of the peace treaty and formulate their reply to the various clauses as they desire.

The extension of the treaty which originally was to have expired at noon, Thursday, was granted at the request of the Germans. "Who advanced the plea that more time was required in order that they might formulate arguments of such importance and length that the original time limit would be incomplete; thus the time has been re-extended to Thursday."

Efforts made in Germany to accelerate even the gist of the contents of the proposed reply of Germany have been without reward. A report has been received that the German delegation has been down to the last day with Alsace-Lorraine, the east Ger-

Italians Hold Back

Not Disposed to Agree With Terms Offered by Allies

Paris.—The Temps anticipates that the revision of the peace treaty which is to be offered the Austrian plenipotentiaries at St. Germain will be delayed for a few days. This will be due, the newspapers say, to the fact that the Italian government appears not disposed to sanction the new Austrian Jugo-Slovak frontier, so long as the question of the frontier between Italy and Jugo-Slavia remains undetermined.

Papal Secretary Pleads For Huns

Note Declares Peace Proposals Are Impossible

Rome.—Cardinal Gasparri, the papal secretary of state, had written the name of the Pope as official note to Col. E. M. House, of the United States peace delegation, transmitting the arguments sent to the Pontiff by the German ships to demonstrate the absolute impossibility of their country accepting the peace conditions imposed by the allies.

In his note, Cardinal Gasparri explained that the Pope takes this step in favor of Germany as he would do for any country requesting his assistance, as he is only animated by humanitarian feelings. The cardinal adds that the Pope has done this more willingly since he was also urged to undertake this initiative by a group belonging to the entente. He begs Col. House to submit the initiative to President Wilson, hoping that the latter will use his power of the influence with the other delegates of the various powers with a view to securing a peace which will really be lasting.

Germans Resented Week Of Mourning

Order Decried by Government Far From Being Effective

Paris.—The week of mourning in Germany decreed by the government because of the terms of the peace treaty appears to have met with little success. The German musicians in the order as a measure which prevented them from earning their daily bread, while the Tageliche Rundbrennen, the German folk song, which the mourning was far from being completely effective. Reports are that nearly all the music-halls remained open, and that in some places the people danced all night. One bit of pungent comment comes from the Volksblatt of Berlin, which says: "It is not now, but on August 1, 1914, that general mourning ought to have been ordered in Germany."

Strong For Her Pathland

Battele.—At a meeting at Kalerstrauten, in the French area of occupation, more than 50 school masters and school mistresses of the Palatinat adopted a resolution asserting their attachment to Germany.

The resolution also protested against any attempt to separate the Palatinat from Germany.

Typus Is Raging Among Bolsheviks

In Rumania, Ukraine and Galicia

Stories Told Are Grotesque

Vienna.—Typhus is raging among the Bolshevik troops operating against East Rumania, and also among the troops and people of Ukraine and in East Galicia and Lemberg.

A. E. Frick, Swiss agent of the International Red Cross and a neighbor of H. C. Dick, of New York, has arrived in Vienna, suffering from typhus. He spent March and April in Galicia and the Ukraine. About 2,000 Austro-Hungarian prisoners turned home from Russia, and halted by the Czechs, one-tenth are dying from typhus. So many have died in box cars that their comrades merely threw the bodies out, leaving them buried along the tracks.

It is feared that the Polish army, under Gen. Haller, will contract the disease, which is prevalent in the Galicia they are occupying. The hospitals in Lemberg are filled with typhus cases.

Russia at War With Rumania

Bolshevik Troops Have Defeated the Rumanians and Occupy Two Towns

London.—Owing to Rumania's disregard of the ultimatum issued by the Russian Soviet government, demanding an evacuation of Besarabia, a state of war exists between Russia and Rumania.

A dispatch from Moscow received here, Bolshevik troops have crossed the Danube river, and taken a wireless dispatch from Bucharest, where they have defeated the Rumanians and occupied Tschegrucl and Bender, the dispatch says. Bender is 38 miles from Odessa. Near this town is the village of Varnitza, where Charles XII. took refuge after the battle of Poltava in 1709.

Czech-Slovaks Return

Shipping Is Being Gathered Up to Transport Fighters

Vancouver.—The Czech-Slovak, formerly of the Austrian army, who deserted in Russia, rather than fight for their oppressors, and who have fled Siberia from the Bolsheviks, are returning to their home in Bohemia. Shipping is now being gathered up with which to transport these great fighters back by way of Vladivostok and the Mediterranean.

This is the first group brought by the Empress of Japan from Siberia. The party is taking home to Bohemia the archduke's campaign in Russia. With exhibits included, their freight amounts to almost 30 tons. They will go by way of Winnipeg, Toronto and New York.

German Captain Suicides

Was Arrested on Charge of Common Robbery

Coblenz.—Max Knaech, formerly a captain in the German army, who was arrested several days ago by United States intelligence officers on suspicion of having in his possession property stolen from France, committed suicide by shooting.

Knaech was arrested at the request of the French military authorities, who planned to return him to France and try him on a civil court charge of common robbery. Knaech was turned over to the French authorities, and killed himself in the jail at Boppard, in which he had been placed for the night.

Liens and other property found in the office of the Collier, the authorities say, was stolen during the war from French homes in Douai.

Reds Preparing New Move

Paris.—The Russian Bolshevik foreign minister, Tchichérine, in a message to Bela Kun, the Hungarian communist leader, concerning the reported advance of Admiral Kolnik, head of the Ousk government, declares the situation is misunderstood. He says that Admiral Kolnik is in a less favorable position than is supposed and that the Bolsheviks are preparing a counter-offensive which they hope will be successful. This information is contained in a wireless message received here.

Bolsheviks Routed by Poles

Warsaw.—On the Lithuanian front the Bolsheviks launched strong attacks against Poldvolsk, north of Vilna, but were repulsed with heavy losses. Polish advance guards have reached the Poldvolsk trenches and artillery, it is added, have bombarded Polish positions on the front in Posen and Dombrowka. There have been reports of fighting on various other sections of the front.

Germans Must Share Economic Losses

Protest to Peace Terms Answered by Allied Governments

Paris.—A reply by the allied and associated governments to the German note protesting against the economic terms of the peace treaty is being calculated to cause the industrial ruin of Germany has been delivered by the German plenipotentiaries. The reply is under eleven heads, and answers each German contention. It declared that the allied and associated governments in framing the economic terms, "had no intention to destroy Germany's economic life."

On the contrary, the report points out that in the reconstruction of the world's affairs Germany will have her part in the progressive development, but also will share with the rest of the world in the economic losses and disadvantages inevitably resulting from the war.

The reply declares that the German note fails to take into consideration the fact that the disarmament of Germany and the end of militarism will relieve the German people of an immense burden of taxation, and return to the ranks of useful production millions of men formerly in the army who have been entirely withdrawn from industrial or agricultural activity.

The reply also makes an emphatic rejoinder to the German complaint that the loss of the German merchant marine will throw out of work thousands of seamen. It says that the "allies' answer" is that the destruction of merchant ships, chiefly by German submarines, has had the unfortunate effect of limiting the opportunities for work of seamen throughout the world, the allied powers being on the whole, the beneficiaries. It adds that there clearly is no reason why Germany should be exempted from its share of the economic disadvantage growing out of this destruction of merchant ships.

The reply on the economic objections is regarded as one of the best documents in the exchange of notes.

Rumanians Protest Against Polish Advance

Poland Has Not Ceased Fighting in Accordance with Padewski's Pledge

Paris.—The Ukrainian armistice commission has been protesting against the Polish advance against the Rumanians in accordance with Padewski's pledge. The Ukrainian armistice commission has been protesting against the Polish advance against the Rumanians in accordance with Padewski's pledge.

French Leader Considers Terms of Treaty Too Generous

Paris.—Baron Densy Cochlin, former minister of blockade, has resigned from the high group in the chamber of deputies, after a meeting of the group, at which it was decided to send a note to Premier Clemenceau criticizing the peace treaty.

In a letter addressed to the Temps, Baron Densy Cochlin considers that the treaty is too generous and unworthy of France and her allies. It weighs heavily upon Germany, he said, it is because Germany's crimes were big, and that her reparations will be costly—which is justice.

Delegates Say Terms Unacceptable

Brussels.—The conference of German political leaders and German peace delegates at Spa agreed that the peace terms were unacceptable. They said that it was a dishonouring semi-official statement, and that Germany would have no stone thrown in an attempt to find a practicable basis of peace which takes into account opponents' justifiable demands and those capable of being born and carried out by the German people.

Prince of Wales Coming to Canada

Will Open the New Parliament Buildings at Ottawa

Ottawa.—The Prince of Wales will visit Canada in August of this year, and will open the new parliament buildings at Ottawa. Sir Thomas White stated in the house that he had received a message from His Majesty the King, through the Governor-General, as follows:

"I am very glad to tell you that, with my entire approval, the Prince of Wales will visit Canada this year in August. He will open the new parliament buildings at Ottawa. Sir Thomas White stated in the house that he had received a message from His Majesty the King, through the Governor-General, as follows:

British Aviator Undaunted

Rayman Still Intends to Attempt a Non-stop Trans-Atlantic Flight

St. John's, Nfld.—Frederick Rayman, the British aviator whose intention to attempt the ocean flight with Harry Hawker, believed to have been set aside, came to grief when his Marlinde plane was wrecked while running to the "take off" announced here several days ago. Recovered sufficiently from injuries suffered when his plane collapsed, he is to leave his bed, Rayman said, that the machine could be rebuilt with spare parts at hand here, provided the motor was in good condition.

While the Handley-Page and Vimy mechanics are assembling their huge machines for the Atlantic "hop," the little Marlinde will be removed to work for repairs.

Captain C. W. F. Morgan, Rayman's navigator, will not be his partner in the new trans-Atlantic flight he is planning. Morgan's physicians told him his flying days were over, and it might take him two or three months to recover from the injuries he suffered in the wreck of the Marlinde. Rayman has not named a substitute for him.

Salzburg Defies German-Austria

Vienna.—The German-Austrian government is being defied by the autonomous government which has been established in the province of Salzburg, western Austria. The members of the government issued a decree forbidding residents of Vienna from residing in Salzburg and announcing their opposition to the system of exchanging food from foreign countries received in Vienna for the agricultural products of the province. The government also announced its intention to hand over to the central government in Vienna the proceeds of the income tax.

Polish Armistice Fails

Paris.—The commission appointed by the supreme council to arrange an armistice between Poland and Ukraine has been dissolved, and the next development in the situation appears to depend on what action the Poles may take.

Polish Women Fight the Ukrainians

Paris.—The advance of the Poles against the Ukrainians in the region of Kulkoff, north of Lemberg, according to the Polish national committee here, was carried out by Polish women battalions and troops from the garrison at Lemberg.

Turkey Presents Complications

Paris.—The Turkish problem has become most acute in the peace conference. Various delegations are striving to find some solution for the dismemberment of the empire which will not provoke a religious war. The Turkish situation is being studied by the other powers as the only nation which can become mandatory for Constantinople without the danger of precipitating another European war, but the United States delegates to the peace conference have expressed the opinion that the United States to accept the mandate especially under the conditions which the powers have outlined.

It is now suggested that instead of transferring the Sultan to a strip of territory somewhere in Asia Minor, he be retained in Constantinople, but be given a degree of temporal power over some territory in Asia Minor, to be selected, thus preserving the form of the Ottoman empire. However, the Indian, Egyptian, and Persian powers are opposed to this.

OTTAWA.—The commons deliberated the outbreak of the government still validating, with modifications, the orders-in-council passed under the War Measures act relating to prohibition in Canada. The discussion took place in committee and was for the most part based upon an amendment moved by Hon. George G. D. Brown, which would have permitted the manufacture in Ontario of beer of a greater alcoholic content than two and a half per cent. for export to other provinces where its sale is permitted.

Frank criticism of bone-dry prohibition came from Dr. Blake, member for North Winnipeg, who asserted that there has been too much control of the action of the people and the government in Ottawa. He said that he had broken the camel's back, and precipitated unrest in the country.

At the evening sitting, Hon. N. W. Foster, who has been the principal support of the bill, declaring that no one piece of legislation had been received with so many expressions of approval. He asked the committee to consider what the situation in Winnipeg would be today were the bill passed. Deal-er for North Winnipeg, who asserted that there has been too much control of the action of the people and the government in Ottawa. Canadians Did Not Fight In Siberia

Vladivostok "Dirtiest Place in Creation" and "More Common Than Dogs"

Winnipeg, Man.—Speaking of the work done by the Canadians at Vladivostok, Capt. J. King, of Toronto, in charge of 250 of the Siberian forces, said there was practically nothing in the way of actual fighting so far as the Canadian force was concerned. There was trouble now and again in the interior, chiefly because of the activities of the Bolsheviks, and Canadian detachments would be sent along with British, Japanese and other allied forces to restore order. This was the only fighting in which the Canadians took part.

Of Vladivostok, the men had little to say of a favorable nature.

"The dirtiest place in creation," was how one man described the city. "Figs were more common than dogs on the main streets," declared another.

Chinese Students Protest

Tokio.—A number of the leaders of the Chinese students in Tokyo, who signed their names with their own blood, have signed a resolution calling upon four thousand of the students in Tokyo to go to the peace conference to protest against the Peace Conference decision in regard to Shantung and against the alleged ambitions of Japan in China.

Polish Women Fight the Ukrainians

Paris.—The advance of the Poles against the Ukrainians in the region of Kulkoff, north of Lemberg, according to the Polish national committee here, was carried out by Polish women battalions and troops from the garrison at Lemberg.

Record Price for Creamery Butter

A record price for Saskatchewan creamery butter in carload lots was offered on the Regina market a few days ago, when steady demand at a pound was bid. The significance of market conditions is realized when it is stated that the local wholesale price in small quantities is about the same as the above, with a cent of wrapping and cartons at two cents a pound.

SAT UP IN BED TO GET HER BREATH

Population of the heart, shortness of breath, inability to lie on the left side, feelings as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary tremors, palpitations, muscular, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied as soon as possible so as to avoid a complete breakdown of the whole system.

Possibilities in Bee-Keeping

Excellent Opportunity for the Industry in Western Canada. Bee-keeping is one of the farm industries in which there are great possibilities in Western Canada. "We have," says a writer in the "Nor-West Farmer," "everything needed except the bees and the beekeeper—a climate that is well adapted to the industry, plenty of honey-bearing plants and the best market in America for the product. But we are paying forty cents a pound for honey shipped in from Ontario and Ohio, and are letting our own raw material go to waste. These days there is about the most expensive luxury that goes on to the consumer's table, but he buys the imported product nevertheless, and pays freight, customs duty and substantial profits to several handlers. On the other hand, a percentage of the honey used in these provinces is produced at home. Bee-keeping is an industry we could very well develop."

"Certainly there will always be an unequal market in these provinces for all the honey that can be produced. There is no question about that. To give some idea of the returns from bee-keeping it may be noted that in 1918 the 47,266 colonies of bees produced 944,000 pounds of honey, an average of 64 pounds per colony. Demand for bees from beginners is large, and it is usual this spring. Swarms are selling at about \$15 each."

The Town That Was Born Lucky

Western Canada Irrigation Convention to Be Held at Medicine Hat.

It was Rudyard Kipling who described Medicine Hat, Alberta, as "the town that was born lucky." And possessing as it does within its limits inexhaustible supplies of natural gas, available for heating and power, its inhabitants have a great advantage over people in most other cities. Medicine Hat is already the home of some of the largest industries in Western Canada, including four mills, iron foundries, glass products plant, rolling mills and several other manufacturers. But in addition to this it is one of the most beautiful cities in Western Canada.

The Western Canada Irrigation Association has chosen Medicine Hat for its convention this year, to be held during the first three days of the week beginning August 4th. It may at first seem strange that a city primarily associated with manufacturing should be selected as a convention point by an organization whose work is so closely related to agriculture. Medicine Hat is greatly interested in irrigation and agriculture, however, being one of the triangle of cities in or bordering on the irrigated area of Southern Alberta.

Beer Drinking

Beer Drinkers Appear to Succumb

Very Readily to Disease. There seems to be a large number of men who do not know that the beer drinker seldom lives to be much over 60 years of age.

The fighting clock place for what should have been mild and easily curable disease. Even moderate beer-drinkers have a poorer chance of recovery, especially from blood poisoning and pneumonia, than the total abstinent. The organs of the body that are attacked are the kidneys, and then comes Bright's disease and dropsy, certain to be fatal.

Over thirty years ago a number of medical men began advising their patients that they had better leave beer alone and drink whiskey instead, and there are few reputable physicians who would not give the same advice today.

A few years ago Mr. J. H. Adams, on behalf of the Baltimore Sun, investigated the working of prohibition in some of the Southern States, and he concluded that whiskey produced more violence than beer, but that beer, decreases, much more than whiskey, the aggregate prosperity, happiness and efficiency of the community. He said "the beer trade, ten-times more than the whiskey trade, produces the evils belonging to the sale of liquor as an institution."

The brewers are going to make a desperate effort to compel us to return to the old drink-making business. The friends of temperance must see that their names are on the voters' list and vote "no" to every one of the questions that come before it. It will spoil your ballot.

By Keeping the Liver Right

The Health of the Vital Organs is Maintained and Serious Disease is Avoided.

Brandon, Man. — The secret of health lies in the liver. It is the liver, kidneys and bowels in maintaining the health of the body. Usually first to get out of order, and then come headache, indigestion, liver spots and biliousness to make life miserable.

Dr. Cook tells how they have learned to avoid such derangements by the timely use of Dr. Chase's Kidney and Bladder Pills. As he says in his letter, they could scarcely keep without them.

Dr. G. C. Cook, 248 10th St., Brandon, Man., writes: "I have been using Dr. Chase's Kidney and Bladder Pills for the last four years for liver trouble. I feel like a new man, and I am able to do my work with ease and satisfaction and help from using them. I find I don't need any other medicine. I have been using them for the last four years, and I am able to do my work with ease and satisfaction and help from using them."

Rantauz is Cheerful

Returned to Versailles With Financial Experts.

New York.—The Associated Press has learned that Ambassador Rantauz, the chief German peace plenipotentiary, returned to Versailles from Spa, where he went for a conference, but he brought back with him Herr Landsberg and Herr Giesbert, two of the main members of the German delegation who had been in Berlin going over the situation with the authorities, and also a large retinue of naval, military and financial experts.

Thus, the indications are that the Germans intend to continue their efforts to come into agreement with the allied and associated representatives on peace terms, that will be satisfactory to the German government and people.

Turks Fight Greeks

Constantinople.—In the fighting which took place after the landing of Greek troops at Smyrna, 300 Turks and 100 Greeks were killed. The fighting took place for the most part in the Turkish quarter of the town, where the Greeks were met by heavy rifle fire.

Paris.—A political crisis has arisen in Constantinople since the debarkation of Greek and allied forces, at Smyrna, the Journal says. The Turkish Grand Vizier or prime minister is said to have resigned.

By Keeping the Liver Right

The Health of the Vital Organs is Maintained and Serious Disease is Avoided.

Brandon, Man. — The secret of health lies in the liver. It is the liver, kidneys and bowels in maintaining the health of the body. Usually first to get out of order, and then come headache, indigestion, liver spots and biliousness to make life miserable.

Dr. Cook tells how they have learned to avoid such derangements by the timely use of Dr. Chase's Kidney and Bladder Pills. As he says in his letter, they could scarcely keep without them.

Dr. G. C. Cook, 248 10th St., Brandon, Man., writes: "I have been using Dr. Chase's Kidney and Bladder Pills for the last four years for liver trouble. I feel like a new man, and I am able to do my work with ease and satisfaction and help from using them. I find I don't need any other medicine. I have been using them for the last four years, and I am able to do my work with ease and satisfaction and help from using them."

Bank Clearings Increasing

Indicate Healthy Business Conditions in Prairie Provinces.

In the bank clearing returns for April of Western Canada cities are signs of greater business activity, which will no doubt be more accentuated during the next few months. Compared with April last year, the increase at Calgary was over half a million dollars—\$6,594,744, as against \$6,081,290 a year ago.

At Edmonton, Alberta, there was a jump from \$14,761,201 to \$16,836,237, a gain of more than two million dollars. Such increases are typical of the returns at the other cities throughout the three provinces, and have been continued. To one or two places, are indicative of the healthy business conditions generally prevailing.

Terms Not Harsh

London, England.—On his arrival in London from America, Earl Reading stated in the course of an interview, that he did not consider the peace terms unnecessarily harsh. Regarding the German contention that the treaty went beyond the 14 points of President Wilson, Earl Reading said: "President Wilson's acceptance of the treaty provided the best answer, for, being the author of them, he was the best interpreter."

Boys Breeders of Baby Beef

Young Farmers Greatly Encouraged By Prices Received.

Encouragement in a tangible form to the young raisers of baby beef in Manitoba was given at Brandon recently, when about 60 calves which had been cared for by boys of the province were sold in record time at prices ranging from twenty to forty cents a pound. Buyers from the leading packing houses are said to have smothered the auction ring with bids.

The prices the boys received are a great encouragement to this rising generation of farmers, though it is hard to part with their best. But their work will have an important bearing on the livestock industry of the future, and their reward should encourage them to come back stronger every year.

Big Enterprise To Be Launched

For Further Development of British Columbia Lumber Industry.

What is undoubtedly one of the most gigantic lumber enterprises ever conceived, and a scheme which is fraught with tremendous possibilities in the development of the British Columbia lumber industry is about to be launched by a strong syndicate, says a dispatch from Victoria. This syndicate is said to be headed by a well-known New York financier, and its operations will be conducted on a colossal and world-wide scale.

The dispatch goes on to say that the syndicate by British interests to develop 30,000,000 feet of lumber which, in the event of a satisfactory agreement being reached on purchase price with the saw mills and lumber manufacturers, will be supplied by British Columbia mills; and in addition to this huge contract, further contracts are pending. European interests for an unlimited quantity of lumber that will run into billions of feet and will keep the mills of the province operating day and night at full capacity.

Burdett Citizens' Meeting

Burdett Citizens' Meeting was held on May 31st, in the Town Hall, Every Business man in town was present. And it was then resolved to have a Monster Pioneer Day Celebration on the 4th July which is Burdett's regular Holiday.

There will be all kinds of Attractions.

A Day of Unqualified Delight.

And Prizes

For Horse Races, Foot Races Jumping etc.

Boy Scouts from every quarter will be there and all Scouts are heartily invited to spend a Day of Pure Bliss with us Come in your Hundreds Boys and have splendid Brass Band and win some of the prizes.

A Fine Basket ball game between Taber and Burdett Girls.

One of the Chief Attractions will be a Three Cornered Box Ball Game between Taber, Foreman and Burdett for a prize of \$50.00

Burdett expects to erect a very large Bowery at least 50x70 for dancing, so come along and have a Happy Time.

Burdett is extremely sorry that Bow Island has been so unfortunate as to have failed to have even one game so far this Season.

But Burdett now has one of the Finest and Best Line Ups in the whole of Southern Alberta; and their Diamond is in First Class shape.

And Burdett is also keeping up her fine Reputation as being the most Progressive and Up-to-Date little town along the whole of the Crown's Main by declaring Wednesday a Half Holiday all the Stores close at 1 o'clock p.m. on that day.

Also to show that Burdett is very much alive, another Big Store is to be opened soon somewhere around 40x60 feet. Lots of Trade here in Burdett.

"Watch Burdett Grow"

The new store is being built by Mrs. R. Fletcher in place of the Fletcher and Son's store which was recently lost by fire.

The brother and sister in law of Mr. George Thacker arrived here recently from England and they are now notwithstanding not far from their mothers.

Mr. N. Small has moved his business to a considerable better position in town. It is now next to the Burdett Meat Market.

The crops here are doing fine although outdoors boys in place. It is hoped that the recent rain will practically annihilate the pest. The moisture was welcomed by the farmers as there had been quite a dry spell.

WORLD HAPPENINGS

CANADA TO GET FREE AIRPLANES FROM BRITAIN

Announcement Made in House, London, is Received With Cheers

LONDON, June 2.—(Reuters).—In the house of commons Saturday, Col. A. W. Ashley, member for Fife, asked: "Will the air ministry offer the Dominions land colonies some of the surplus airplanes for postal and similar services?"

Major-Gen. Seeley replied: "As a free gift to the Dominions, crown colonies and India." (Cheers)

REPRESENTATIVE AT WASHINGTON FOR DOMINION

Matter is Now Subject For Discussion Says British Member

LONDON, June 2.—(Reuters).—In the house of commons today N. Gratton Doyle, member for Newcastle, asked the prime minister if before the appointment of a new British ambassador at Washington it had been determined whether the government, in view of Canada's geographical position and her natural and vital interests at Washington and in remembrance of the part Canada played in the war, the time was not opportune for the Dominion to have a special representative at Washington with the status and prestige with the new Canada, which had developed during the war.

Hon. Cecil Harcourt replied he could not say anything further about the matter. He had already stated it was the subject of discussion with the Canadian government.

Harold G. Boyce, one of the two bandits who was shot while attempting to rob the bank of Nova Scotia at Antigonish, died in the General Hospital.

CHILE ADHERES TO NATIONS LEAGUE

SANTIAGO, Chile, June 1.—Chile will adhere to the league of nations as it embodies the principles of the universal peace, President Alessandri today declared at the opening of parliament today.

He said that the era of peace opened by the armistice of 1918 would be rewarded by a peace which would benefit the world.

The international relations of Chile, the president added, were cordial with all nations, except Peru. In regard to the dispute over Tacna and Arica with Peru, the president said that Chile was disposed to adhere to the treaties between the two countries.

MAKING EFFORT TO LOCATE BOMB PLOTTERS IN U.S.

WASHINGTON, June 2.—Department of justice agents and police throughout the country today were hunting the organized band of anarchists who last night launched what they called an attempt to overthrow the governments by assassinating with bombs government officials and prominent men opposed to the spread of lawlessness.

The police have established that the dead anarchist, who probably was an Italian, came to Washington from Philadelphia, and they have reason for believing that the nationwide plot was conceived in and directed from that city. Hope was held out today by federal agents that the perpetrators of the crime might be apprehended. The identity of the anarchist who was killed apparently has been established and the next steps are to determine who were his accomplices. The outrages committed last night were believed to be a sequel to the May day bomb plot, when internal medicine men were mailed to a more prominent men. The explosions last night were accompanied by the scattering of anarchistic literature written by persons who were not illiterate.

Anarchists and radicals with anarchistic ideals all over the country were being questioned today by agents of the department of justice. When these commonly referred to as "anarchists" were being interrogated.

New Island Review

Mr. Editor.
Kindly permit me space to reply as
chief, to Mr. Matepays' query
to the city fathers, in your last week's
issue. His statement is absolutely
false that both churches were empty
at the same time, as my only object
in assisting in burning weeds was to
see that each tank was recharged, before
the second one was empty and I
personally took the first chemical
engine away and refilled the same
then returned and used up the second
one, as long as I am the chief that
same proceeding will be gone through
at least every three months as the
charge deteriorates and should be
refilled periodically, moreover the
defects which we discovered and repaired
in testing out on the day in question
it may be the means of saving his
house and place of business some day.

Thanking you Mr. Editor

I am respectfully
Y. H. Hume, fire chief.

Bolshevism simply another name
for revolution; people do not revolt
when they are happy, contented, and
well fed, they revolt when the high
cost of living is beyond their reach
and today in this country the cost of
living is beyond the reach of a great
many people. Perhaps not to the ex-
tent of starvation, to the extent of
forcing them to deny themselves
many of those things that they have
previously considered to be the neces-
saries of life.

Bow Island North

Talking of fall rye, it is surprising
that none of our out-gathering farmers
do not raise a greater acreage of this
splendid grain. Besides being a high
producer, after an excellent fall pasture
when the spring opens the stock may
crop it down and increase the milk
supply in the case of dairy cows, until
early in May, then let go till fall;
yields abundantly if given half a
chance. Tom Brooks has a field this
year. The price at present is high
somewhere in the neighborhood of
three dollars per bushel. Its worth
considering Mr. Farmer when high to
sow.

A valuable Russian Mouse Hound
the property of Art Lindquist while
in full after his quarry, was un-
fortunately turned by a gopher the
latter had also unfortunately for him-
self engaged on a sack of poisoned
grain. We deduct that the poor hound
worked the gopher over, with the
result that the gopher and his con-
tents turned the cables. When in-
terviewed on the incident we left our
corner back Art in tears. There up
there are more Russian Mouse Hounds.
